PLAN AHEAD! The best time to agree how a prize is going to be divided among group members and decide the responsibility of each group member is BEFORE the drawing.

Tips:

- Sign your tickets
- Keep a list of players
- Keep a list of amounts wagered by player
- Copy ticket for each group member

Decisions to consider when playing with a group:

- Who buys the Lottery tickets for the group?
- Who safeguards and keeps the Lottery tickets for the group?
- Who keeps group members informed of the purchased tickets?
- Who keeps the group members informed of the draw results?

The Lottery can divide a prize of \$600 or more among ten (10) winners. If your group is larger than ten (10) members, the group may choose to claim its prize using one member of the group or in the group name (using a Federal tax identification number) with a group representative, as agreed upon by the group. If you choose to claim your prize in the name of an individual or a group with a group representative, that individual or group representative is responsible for distributing the money to each member, preparing any necessary paperwork for the claim, preparing necessary tax forms, and reporting this information to the appropriate tax departments.

This is not an official Lottery playcard and cannot be used when claiming a lottery prize. It is to be used for the group's records only. The Lottery is not responsible for disputes between or among group members.
